TO VOTE ON BONDS THIS AFTERNOON

RESOLUTION MADE A SPECIAL ORDER FOR 5 O'CLOCK.

At that Time the Question Will Be Balloted On—Lively Debate Surely To Take Place in the House—Two Bills Introduced in the Senate—Talk in the House.

WASHINGTON, Feb. 14.—The bond resolution was made a special order today and a vote will be taken at 5 o'clock this afternoon.

Washington, Feb. 14.—There is much talk in the house over the proposed financial legislation, caused chiefly by the option on future bond issues granted to the foreign syndicate. Many of the members of both house and senate are displeased that Secretary Carlisle should have bound himself to submit all bond issues up to Oct. 1 to the Morgan-Rothschild syndicate. The provision caused considerable comment. The gold bond issue comes before the house this morning in the shape of a joint resolution authorizing the secretary of the treasury to issue bonds payable in gold coin at a premium netting 3 per cent interest, the gold received thereafter being reserved from use for current expenses, as well as greenbacks redeemed by the gold. Chairman Wilson, in view of the urgency of the matter, will allow but one day for debate, and a rule calling for a vote this evening will be reported. The contract with the Morgan-Rothschild syndicate was dated Feb. 8, so the ten days allowed to secure the gold bond will expire next Monday, and the joint resolution to be effective must get through the senate by that day. Of course this is out of the question, but Mr. Wilson hopes to get the measure through the house in ample time to allow the senate to act before Monday. The vote in the house seems very uncertain. Both parties are split up. Few republicans will indorse the proposed gold bonds, as being either necessary or justifiable, but at the same time, it is claimed, many of them will vote for it regardless of their convictions.

TWO BILLS FOR BONDS.

Vilas and Sherman Offer Measures in the Senate.

Washington, Feb. 14.—A financial bill on the lines of the President's last message was presented to the senate yesterday by Mr. Vilas (dem., Wis.). Its reading was followed with much interest and it brought out a brief but spirited debate. The measure is entitled a bill "To save the American people \$16,174,770." It recites the President's statement that he had agreed to the issue of \$62,400,000 of bonds payable in "coin" at an interest equivalent to 3% per cent, but had retained the right to issue bonds payable in gold at 3 per cent if congress granted the authority. The bill states this difference in interest amounts to \$539,159 a year, or \$16,174,770 in the thirty years during which the bonds will run. It is provided that the secretary of the treasury shall be authorized to issue \$65,000,000 of bonds at 3 per cent interest payable in gold in thirty years. The bonds are to be used in redeeming legal tenders and are to be exempt from tax.

Mr. Hoar (rep., Mass.) asked for information as to details of the bill, but Mr. Vilas had none.

Mr. Wolcott (rep., Colo.) gave a new turn to the discussion. "The morning reports tell us," said he, "that these bonds are being sent to London at 11½ and by this means the syndicate of Jewish bankers who have taken the bonds are netting a profit of 8 per cent."

After some further discussion, Mr. Sherman (rep., Ohio) came forward with another financial measure. He offered it as a substitute to the bill for unlimited silver coinage reported from the finance committee Tuesday. Mr. Sherman's bill is similar to the one introduced some time ago, although he now gets it directly before the senate. It provides for bonds at 3 per cent, payable in gold coin, and for the issue of gold certificates.

Both the bills of Mr. Vilas and Mr. Sherman went to the table.

Mr. Aldrich (rep., R. I.) introduced resolution calling for a copy of the late bond contract and sought to have the resolution immediately considered, but Mr. Vest objected and it went over.

With this financial prelude ended the session turned to general business.

Mr. Vilas gave notice of eulogies on Feb. 15 to the memory of the late Representative Shaw of Wisconsin.

The house resolution was passed extending the time for making returns on the income tax from the first Monday in March to April 15 next. Several senate amendments to the income tax law as to fire insurance premiums and corporation stocks were added to the resolution.

The senate then resumed consideration of the postage appropriation bill, and Mr. Chandler (rep., N. H.) made a sharp arraignment of the provision giving the postmaster-general discretion over expending the \$3,200,000 for railroad postal rates.

Mr. Vilas, who was postmaster-general in Mr. Cleveland's first cabinet, supported the amendment. He offered an amendment to the impending bill providing for the purchase, ownership and management of the necessary postal cars by the government and providing an appropriation of \$500,000 therefor.

Mr. Allison said the Vilas amendment proposed a revolution in the postal system, which should not be undertaken without investigation.

There was a net exchange between Mr. Chandler and Mr. Berry of Arkansas, when the latter complained against an objection which cut him off from securing the passage of a land bill. The senate then held a brief executive session and adjourned.

BOND CONTRACT TALK.

Mr. Van Voorhis' Resolution Causes the Document to Be Reduced.

Washington, Feb. 14.—In the house yesterday during the debate on the dis-

tained the noor and nad read a resolution calling on the secretary of the treasury for information concerning the bond contract, which he said he would push as soon as he could be recognized to do so.

Thereupon Mr. Wilson (dem., W. Va.) said: "I have a copy of the contract and will include it in my report on the resolution."

Mr. Van Voorhis' resolution, after expressing dissatisfaction with the proposed bond issue, finishes as follows: "Resolved, That the committee on ways and means of the house report immediately all the testimony, evidence and statements furnished to it by the secretary of the treasury in relation to that loan, including the contract made with any person or persons concerning the same."

Almost immediately after Mr. Van Voorhis' resolution had been read Mr. Wilson, chairman of the ways and means committee, presented the report on the resolution for 3 per cent bonds and with it the contract read by Secretary Carlisle. The minority were given leave to file a minority report at any time. After passing several bills the house adjourned until to-day at 11 o'clock.

BONDS AT 3 PER CENT.

Committee Favors Resolution to Relieve Treasury.

Washington, Feb. 14.—The house committee on ways and means voted yesterday to report to the house a resolution practically as agreed upon by the subcommittee. The vote was: Yeas 8, nays 6. The resolution is as follows: "Resolved, By the senate and house of representatives of the United States in congress assembled, that the secretary of the treasury be and is hereby authorized to issue and dispose of at not less than par in gold coin, bonds of the United States, with the qualities, privileges and exemptions of bonds issued under the act approved July 14, 1870, entitled 'An act authorizing the refunding of the national debt,' to an amount not exceeding \$65,116,275, bearing interest at a rate not exceeding 3 per cent per annum, principal and interest payable in gold coin of the present standard of weight and fineness, said bonds to be made payable not more than thirty years after date. Provided, however, that no part of the proceeds of the sale of such bonds nor of the notes redeemed with such proceeds shall be available for the payment of the current expenses of the government."

The vote of 8 to 5 on reporting the bill showed party breaks on both sides. Among the republicans, Messrs. Reed of Maine and Payne of New York were for the bill, Mr. Hopkins of Illinois against it and Mr. Grosvenor of Ohio refrained from voting. Among the democrats the division was even greater. Messrs. Wilson of West Virginia, Turner of Georgia, Tarsney of Missouri, Montgomery of Kentucky, Stevens of Massachusetts and Cockran of New York voting in the affirmative, and McMillin of Tennessee, Whiting of Michigan, Bryan of Nebraska and Wheeler of Alabama in the negative.

Mr. Bynum of Indiana was on the floor of the house while the vote was being taken, but did not appear to register either way. Mr. Dalziel of Pennsylvania and eGar of Illinois were not present.

The vote in full is as follows: For the bill—Wilson, Tarsney, Turner, Montgomery, Stevens and Cockran (dem.) and Reed and Payne (reps.)—8.

Against the bill—McMillin, Whiting, Bryan and Wheeler (dem.) Hopkins (rep.)—5.

A minority report will be made by those who voted against the bill. It will probably be written by Mr. Bryan.

W. C. T. U. PETITION.

Will Be Presented to United States Government Next Friday.

Washington, Feb. 14.—This week will witness the inauguration of one of the greatest steps ever taken by the Woman's Christian Temperance Union in the fight for temperance. On Friday evening representatives of the World's W. C. T. U. will present the famous "polyglot petition" to the government.

Lansing, Mich., Feb. 15.—Senator Eaton yesterday called up the free silver resolution of Senator Clapp, which was tabled Tuesday, and its consideration was made the special order for Feb. 19, without opposition. Bills were noticed providing for the submission of a woman's suffrage amendment to the constitution and abolishing the office of commissioner of mineral statistics.

The house in committee of the whole agreed to the joint resolution providing for the submission to the people at the April election of a constitutional amendment increasing the salaries of state officers. As agreed upon the proposed salaries are as follows: Governor, \$4,000; auditor-general and attorney-general, \$3,500; circuit judges, \$2,500; state treasurer, secretary of state, land commissioner, and superintendent of public instruction, each \$2,500.

Minority Report.

Washington, Feb. 14.—A minority report on the bond resolution presented in the house yesterday has been made by Bryan and Whiting. It opposes the proposed issue for its alleged discrimination against silver, and denounces the secretary of the treasury for permitting the noteholder to choose the coin in which it shall be paid. They add: "We have no hesitation in declaring it as our conviction that there is no remedy permanent in character or promising in results, except an immediate exercise by the secretary of the treasury of the right to redeem United States notes and treasury notes in standard silver coin, whenever it is more convenient for the government to do so, and we further believe that the greatest danger which can possibly attend such a course is infinitely less than the evils that are certain to follow an adherence to the present policy."

More Developments Expected.

Carlisle, Ill., Feb. 14.—In regard to the Ramsay affair information has developed that Henry Seiter, the Lebanon banker, secured the loans from Mr. Ramsay, the dead treasurer, by representing that he was amply able to repay Mr. Ramsay at any time. The bondsmen of Mr. Ramsay are willing to cancel their claims against the Ramsay estate if they can secure \$200,000 from Seiter. If they can do this the assets here are amply sufficient to pay all the depositors in the bank here in full. Starting developments are expected here in a few days.

A NEW YORK BLOCK LAID LOW BY FIRE

MERCHANTS' CLUB BUILDING GOES UP IN SMOKE.

The Loss Will Reach Fully \$75,000—Three Firemen Killed by Exploding Powder While Fighting a Blaze at Lynn, Mass.—Two More Are Missing—Other Fires

NEW YORK, Feb. 14.—The merchants club building burned this morning and the loss will reach \$75,000.

Lynn, Mass., Feb. 14.—Three men were killed outright and several injured beyond the hope of recovery by an explosion attending a fire in this city last night. The fire started at 8:30 in the hardware store of William Henry Hutchinson in Monroe street, and second and third alarms followed. The flames spread rapidly and had soon jumped to an adjoining building, a portion of the estate of Charles G. Clark. Stored in the hardware was a considerable amount of powder, which exploded shortly after the firemen got to work causing collapse of the wall, against which the men were working on their ladders, and several were buried in the debris.

When the ruins could be gotten at, three bodies were taken out, being those of CONLIN, JOHN F., steamer 3. MURRAY, THOMAS, steamer 3. SKINNER, HENRY, captain, chemical engine 1. Missing.

Butteck, George, fireman.

Kimball, a clerk, supposed to be in the building when the fire broke out.

The injured. Following in the list: LORENZO ALLEY, Charles Carson, Geo. Canter, William Hunt, George Middleton, William Minton, Leo Miller, A. C. Moody, Nicholas Webber.

Besides the dead several firemen were taken from the ruins, all badly injured and some probably fatally. The fire was under control by 10 o'clock, and the loss will not exceed \$98,000.

LOSS OF \$100,000 AT COLUMBUS.

Part of the Denig and Ferson Block Is Burned Out.

COLUMBUS, Ohio, Feb. 14.—At 6 o'clock last evening fire broke out in the Denig & Ferson block, a four story brick building at High street and Elm alley, and before water could be thrown the flames had gained considerable headway. It was two hours before the fire was under control. The upper and rear portions were burned out, the loss on the building being \$30,000, fully insured. The total loss will aggregate \$100,000.

Wisconsin Foundry Burns.

RIPON, Wis., Feb. 14.—At noon yesterday fire broke out in W. E. Schaefer's foundry, caused by the overturning of a pot of molten iron. W. E. Soule, who was at work in the foundry, was badly burned about the face and hands before he could escape from the building. Loss, \$10,000; insurance, \$5,000.

Salt Lake City Visited.

SALT LAKE CITY, Utah, Feb. 14.—Fire last night destroyed the clothing store of Lipman & Wallerstein, the Kentucky Liquor company's store, Smith's drug store, and Samuel Levy's tobacco and cigar store. Loss, \$75,000; insured,

Methodist Church Destroyed.

London, Ont., Feb. 14.—The Dundas Street Methodist church was destroyed by fire yesterday. Fire Chief Roe and Firemen McDonald and Siddell were seriously, if not fatally, hurt by falling walls. Loss, \$30,000.

FLOUR MILL GOES UP.

ROCHESTER, Ind., Feb. 14.—Leiter & Peterson's flour mill burned yesterday morning. Loss, \$25,000. Insurance, in National Millers', \$5,000; Alton, \$5,000.

To Raise State Officers' Salaries.

LANSING, Mich., Feb. 15.—Senator Eaton yesterday called up the free silver resolution of Senator Clapp, which was tabled Tuesday, and its consideration was made the special order for Feb. 19, without opposition. Bills were noticed providing for the submission of a woman's suffrage amendment to the constitution and abolishing the office of commissioner of mineral statistics. The house in committee of the whole agreed to the joint resolution providing for the submission to the people at the April election of a constitutional amendment increasing the salaries of state officers. As agreed upon the proposed salaries are as follows: Governor, \$4,000; auditor-general and attorney-general, \$3,500; circuit judges, \$2,500; state treasurer, secretary of state, land commissioner, and superintendent of public instruction, each \$2,500.

Forbids Porters Receiving Tips.

INDIANAPOLIS, Ind., Feb. 14.—The Van Arsdel sleeping car bill, which in the original made it illegal for unoccupied upper berths to be thrown open while the berth below as occupied, was passed to a third reading with this feature stricken out and several important amendments added. Representative Dinsdale & Lake offered amendments making it illegal for the porter of a sleeping car to receive tips placing the rates at 75 cents for the first 100 miles and 50 cents for each additional fifty miles. These were adopted by the house and the bill was ordered engrossed and passed to third reading.

More Developments Expected.

CARLISLE, Ill., Feb. 14.—In regard to the Ramsay affair information has developed that Henry Seiter, the Lebanon banker, secured the loans from Mr. Ramsay, the dead treasurer, by representing that he was amply able to repay Mr. Ramsay at any time. The bondsmen of Mr. Ramsay are willing to cancel their claims against the Ramsay estate if they can secure \$200,000 from Seiter. If they can do this the assets here are amply sufficient to pay all the depositors in the bank here in full. Starting developments are expected here in a few days.

Prince Ferdinand Expelled.

BERLIN, Feb. 14.—A report current here that Prince Ferdinand of Bulgaria has been expelled from that country and has fled to Roumania. Inquiries made in various quarters in this city have thus far failed to confirm the rumors.

More Elbe Victims Brought Ashore.

LOWESTOFT, Feb. 14.—The body of L. Lockhart of New York, who was a cabin passenger on the steamship Elbe has been recovered. It was brought to this place yesterday. Three other bodies have also been found.

Russian Seal Company.

NEW YORK, Feb. 14.—Eighty paintings

and drawings from the Russian govern-

ment has granted a concession to a Russian company for taking seals, sea animals, birds and fishes in the Pacific ocean and the Polar sea.

MEMORIAL KILLED BY A LARGE VOTE

ALLAMONT DAM PROPOSITION FAVERED AT MADISON.

Mr. Sloan Made a Telling Speech in Which he Said Only a Few Minnesota Lumbermen Wanted the Memorial Passed, While the People at Large Wanted It Voted Down.

MADISON, Feb. 14.—When the question of indefinitely postponing the memorial to congress against the Allamont dam bill came up this morning, Mr. Sloan spoke at lengths against the memorial. The present bill grants the right to flood Indian lands and the right to build a dam has already been secured. The people wanted the bill passed and it was only certain Minnesota lumbermen who favored memorial as the dam prevents the floating of logs. The memorial was killed by a vote of ayes 89, nays 40.

ILLINOIS LEGISLATURE.

Day's Proceedings in Upper and Lower Houses.

SPRINGFIELD, Ill., Feb. 14.—Another bill to regulate Pullman's sleeping cars appeared in the house yesterday. It was introduced by Mr. Condo and will doubtless cause an uprising among colored porters, as its chief provision is to prohibit sleeping or dining car porters from soliciting "tips." Mr. Murdoch offered a resolution prepared by representatives of railroad labor unions asking Illinois members in congress to pass the McGann arbitration bill. Monroe offered the same in the senate. In the senate a resolution was offered by Senator Hamer reciting that large appropriations are asked by the Illinois Industrial Home for the Blind and it was referred to that committee. The bill to enable Chicago to make an assessment of 2 mills on the dollar of valuation for the public library passed the senate by a unanimous vote. Mr. Muir in the house and Senator Crawford in the senate introduced a bill to enable the board of drainage trustees to levy a tax not to exceed 1½ per cent on the taxable property in the district for three years, beginning last January. The senate passed the Dunlap bill appropriating \$4,000 annually to aid the State Horticultural society.

In the house Mr. Cochran's bill to secure the assignment of notes secured by chattel mortgages came up on second reading. Sec. 1 was stricken out and the following substituted:

"All notes secured by chattel mortgages shall state on their face that they are so secured, and when assigned by the payee therein named shall be subject to all defenses existing between the payee and the payor of said notes,

the same as if said notes were held by the payee therein named; and all chattel mortgages secured by notes which do not state upon their face the fact of such security shall be absolutely void."

Mr. Mounts moved to strike out the enacting clause of the bill, but the motion was lost—22 to 100.

Several committee amendments were adopted and then the bill was advanced to third reading.

AFTON'S INSTITUTE WAS FULL OF PROFIT

RESOLUTIONS ADOPTED FAVORING PURE DAIRY PRODUCTS.

H. S. Woodruff's Article on the Blake Bill Condemned, and They Decided To Demand of the Legislature Such Laws as Would Protect the People From Fraud.

AFTON, Feb. 14.—Afton's first farmers' institute closed with yesterday afternoon's session, and now the Afton people want "the powers that be" to give them another next winter. The meetings were held in Lawton's hall, and each session was made profitable and interesting by the presentation and discussion of varied topics of vital importance to all agriculturists. The institute was conducted by A. F. Noyes of Beaver Dam, assisted by W. C. Bradley of Hudson, and Charles Thorpe of Burnett Junction, an able and able trio of state workers. Following was the programme:

Pertinent questions and lively discussions followed each topic. There was a crowded house at the evening session, over which J. B. Humphrey was called to preside. Miss Anna Duggan's paper on "The Education of Children" was a strong one and on motion of S. C. Carr it was voted to have it published in the county papers. At yesterday afternoon's session the following resolutions were presented and adopted:

The Resolutions Adopted.
Resolved. 1. That we express our thanks to the farm institute committee of the board of regents and Superintendent McKerrow for placing an institute at Afton.

2. That we appreciate the very able work done by the gentlemen in charge and that we believe good results must follow.

3. That we urge the superintendent and board of regents to place an institute at Afton during the season of 1895-6.

4. That a copy of these resolutions be sent to the Board of Regents and that copies be sent to the county newspapers for publication.

Resolved, That we demand of our legislators such laws as shall adequately protect us from these frauds; and be it further

Resolved, That we condemn the article recently published in the Gazette over the signature of H. S. Woodruff censuring the Blake bill now before the legislature.

Resolved, That a vote of thanks be tendered the local committee for the energy and pains taken in conducting their part of the program and for the hospitable manner in which they have entertained the people from abroad, and the ladies for the excellent dinners furnished. Among those present were Mr. and Mrs. J. H. Haviland, John Spoon, W. H. Merritt and Clement Noyes, of Janesville; Lewis Clark, Lorenzo Rosey, A. C. Powers and David Thorne of Beloit; Henry Tarrant and N. O. VanGilder of LaPrarie; S. C. and J. G. Carr of Milton; William Ross and Frank Owen of Footville.

A Week's News at Afton.

AFTON, February 14.—The Modern Woodmen of Afton Camp No. 2102 are arranging for an entertainment and supper to be held Friday evening, February 22, the entertainment to be given at Lawton's hall; the supper to be served in the basement of the church. Owing to this arrangement, the next regular meeting of the camp will be held Thursday evening, February 21, and every member is requested to be present, as important matters will be brought up for consideration. The Ladies' sewing circle's dinner in the church basement during the farmers' institute. Chicken pie and oyster stew were the two leading features, with baked beans, biscuit, canned corn, coffee and all the popular brands of pie, as side issues. The circle is planning for a "fair" to be held about Feb. 28, a more extended notice of which will be given later. The baby daughters of Mr. and Mrs. G. C. Antisdel have been seriously ill with congestion of the lungs, but are improving at last reports. W. G. Waite was up from Woodstock, Ill., for a brief call Wednesdays. W. C. Phoenix has moved from the Bortel place and now occupies the north rooms of Mrs. Waterman's house. Miss Anna L. Tank is temporarily a resident of the Bower City, having a position there for a few weeks. Miss K. Viola Griffin of Janesville, was a recent visitor among relatives in this vicinity. A. R. Waite is slowly recovering from an attack of pneumonia.

IMPERIALS TO PLAY FOR THE POOR:

Another Performance For the Benefit of the Needy on February 23.

The Imperial Entertainers will appear at the Myers Grand again on February 23 and the proceeds of the performance will go to the city poor. Mayor Thoroughgood will have charge of the distribution of the funds and will appoint a committee in each ward to handle them. The program will be changed in many ways and the house should be filled to overflowing. The date is not yet definitely decided upon as Manager Stoddard is out of town.

VALENTINE SOCIAL A JOLLY ONE

Junior League of the Court Street Church Entertained Last Evening.

A very pleasant valentine social was given at the Court Street M. E. Sunday school room last evening, under the auspices of the Junior Epworth League. Those who took part in the programme were Miss Birdie Stevens, La Fayette Schenck, Harold Green, Harry Spencer, Hazel Dewey, Maud McDonald, Elsie Weaver, Eva Green, Mary Summers, Libbie Graveline, Hatlie Weaver, Myrtle Dewey, and Mamie Hillbrandt.

After the programme was completed valentines were distributed by Misses Libbie Graveline, Margaret Harris, Maud McDonald, Jennie Harris and Nellie McDonald.

GOOD ROAD PLANS HELP THIS TOWN

JANESEVILLE IS ON THE HIGHWAYS SELECTED.

The Old "Government Road" From Madison to Janesville and From Janesville to Watertown Are Figured On—Scheme Means No Raise In Highway Taxation.

Janesville will reap a part of the benefit to accrue from the organization of the "Wisconsin League For Good Roads" as the plan of the highways to be improved takes Janesville in. As will be seen by the accompanying map, the old "government roads" from Madison to Janesville, and from Watertown to Janesville are included in the scheme. Rock county people have been much interested in the good roads problem for some years back. The matter has been discussed pro and con and much has been said in relation to the different methods of putting them, and then keeping them in good condition.

It is not the purpose of the league to increase the burden borne by the farmer in the way of highway taxes, but rather to work in the direction of county and state aid in the building of main roads, such as those on the map, and the resolutions adopted

GET ALL AMENDMENTS IN ONE BILL

City Attorney McElroy Thinks that the Measure Will Pass.

City Attorney McElroy reports that there are a large number of amendments proposed to the uniform charter act. The most of these will be embodied in one bill, and then considered by the committee on cities. He thinks there is no doubt but that the amendments proposed for the relief of this city will be passed all right, either as a general law or as an amendment to the uniform charter, and perhaps both.

There is some question concerning the constitutionality of an act permitting cities to amend their charters even by adopting a portion of a law similar to a section of the uniform charter, at the pleasure of a city council.

PLAYED WHIST WITH GEORGE SALE

Party Entertained in Honor of Miss Wallace of Chicago.

George Sale entertained a number of friends last evening in a very pleasant manner at his First ward home. The affair was in honor of Miss Luella Wallace of Chicago and was much enjoyed. Whist was the principal amusement and light refreshments were served during the evening. The guests were:

Mrs. A. J. Harris, H. A. Ford, N. L. Cowles, W. W. Watt,
George Sale, Misses—
Josie Carle, Jennie Rowe,
Alice Rager, Mabel Shumway,
Luella Wallace.

Engineer SELLECK IN A BAD PLACE

Sde Rod on The Engine Broke And Smashed In The Cab.

While Engineer Albert Selleck was pulling the Chicago & Northwestern "accommodation" at the rate of fifty miles an hour last night the side rod on the engine gave away. The big piece of steel threshed around like a nail, and before the engine could be stopped it had smashed the cab in on that side and broken the pump. The train was about a mile this side of Lawrence when the accident occurred, but Engineer Selleck succeeded in getting to Janesville but an hour late.

BRISTOL ALWAYS SEES A FIRE

Alarm Never Fails to Come in Soon After His Arrival.

Thomas Bristol, of West Superior, travels for a jewelry firm, and has visited Janesville frequently during the past five years. During that time he has never failed to witness a fire alarm before departing.

"We are going to have a run tonight," remarked Captain W. E. Evedson Tuesday evening addressing the chief engineer.

"How do you know?" inquired the chief.

"Because Bristol is in town and he tells me that he has not been here in five years, and failed to witness a run of the fire department."

Mr. Bristol left for the north on the 1:20 train Tuesday morning, about twenty minutes after the fire broke out at the Victor plant, and the train passed by in time to allow him a good view of the fire.

THIS DAY IN HISTORY

1879—Captain James Cook, the pioneer navigator of the Pacific, killed by the natives of Owyhee (Hawaii). Captain Cook combined with the skill of a navigator that of a discoverer in astronomy, geography and other sciences. The voyage in which he lost his life was undertaken for the purpose of discovering the northwest passage. After sailing to the seventh degree north latitude to the Sandwich Islands he passed the winter. Some natives stole a ship's boat, which Captain Cook attempted to recover. Retreating in face of superior numbers to the beach, he was killed before the ship's crew could land and succor him.

1824—General Winfield Scott Hancock, the brilliant commander of the Second Army corps, born in Montgomery county, Pa., died at Governor's Island, New York harbor, Feb. 9, 1886.

1859—Great naval disaster in a hurricane at Apia, harbor of Samoa.

1861—General William Tecumseh Sherman died in New York city; born at Lancaster, O.

1824—Mrs. Myra Bradwell, the first woman lawyer in Illinois, died in Chicago; born 1831.

A WOMAN'S INGRATITUDE.

But the Young Man Will Never Again Stop Her Runaway Horse.

The depths of human ingratitude have not yet been fathomed. Such at least is the opinion of a young man who exerted himself far beyond his usual wont a few weeks since in an effort to confer a favor upon some unknown individual, and who reaped, as the fruit of his labors, only fault-finding and personal loss. A valuable team of horses had run away and the young man referred to found them at a late hour stiffening with the cold and dragging the remains of a handsome harness. He tied the horses near by and was going to notify the policeman on the beat, when the horses broke loose and would have started down into the railroad tracks in the vicinity had he not stopped them. He took them to his home, a distance of over a mile, and stabled them for the night, and the next day paid for an "ad" in the want columns of the local paper in order to find their owner. What was his chagrin when he learned that the owner of the team had secured possession of her property through the aid of the police department, to whom she had said some very uncomplimentary things about the officious party who had taken possession of her nags. Injury was added to insult when he went to the lady's house to reimburse himself for the expense of the advertising, for he was informed by the owner that she was under no obligations to him, as her horses had not been properly cared for and had been without their breakfast.

Holds Bank Directors Responsible.

Indianapolis, Ind., Feb. 14.—Judge Baker of the United States court, handed down a decision yesterday in the suit of the International Typographical Union against Theodore P. Haughey and other directors to recover \$35,000 alleged to have been fraudulently received a short time before the bank went to the wall. The ruling is a precedent and holds that the directors of a bank who obtain deposits by the publication of false reports may be held responsible for obtaining money fraudulently.

Will Be Independent Knights.

Columbus, Ohio, Feb. 14.—Shortly after 1 o'clock yesterday morning the Knights of Labor delegates meeting here decided to form an independent organization. A committee on constitution was appointed and is at work. A meeting will be held some time today to hear the report of the committee and complete the organization. It is claimed 75 per cent of the old knights will be represented in the new order.

Breeders in Annual Convention.

Cedar Rapids, Iowa, Feb. 14.—Breeders from northwestern states are here attending the eighteenth annual meeting of the American Poland-China Record company. The secretary reported the receipts during the year as over \$7,000. J. V. Wolfe, Lincoln, Neb., was elected president. The next meeting will be held in this city. The meeting continues to-day in the form of an institute, with papers by prominent members.

FASHIONABLE FANCIES.

Skirts Grow Fuller—Low Waists With Shoulder Straps Worn With Guimpes.

When the material of an evening dress is heavy, such as velvet, brocade or satin, a very light wire is sometimes run through it at the edge of the skirt, in order to make the folds stand out in the fashionable manner that now obtains, and which is in such direct contrast with the clinging mode of a few years since. The insertion of the wire gives the undulating effect to the skirt which is now the correct outline.

The skirt of evening gowns is now five yards and a half around the foot at the least and often forms godets all around instead of at the back alone. As sleeves

SORTIE DE BAL.

show a continued tendency to increase in size, skirts grow larger also to keep the balance of proportion, and the only way to secure this widespread effect without the aid of crinoline is by means of godets.

Several striking and bizarre effects have lately offered themselves for public approval, their inventors having taken advantage of the present catholicity of taste to make a daring excursion into the realms of originality. In order to receive the approval of intelligent persons—and these can readily make or mar the fashion—a garment must have something to recommend it, either extreme novelty, beauty, elegance, grace or some other point in its favor. A style that is merely grotesque, absurd or unsymmetrical cannot hope for any lasting popularity.

The guimpe is coming into general favor again, and half low waists without sleeves are worn over it. Laced bodices, princess bodices and waists with straps buttoning over the shoulders are among the new fancies of fashion.

A sketch is given of a sortie de bal in suede drap de soie. It consists of a half length and a short cape. The longer cape is lined with wadded satin bengaline of a rose tint and is ornamented with applied motifs of velvet mordore outlined with cord. The shorter cape is lined with un-wadded rose bengaline and has a sort of yoke of velvet embroidered with cord and bordered with a stolike band of fur. A band of fur also edges the cape, and the flaring velvet collar is lined with fur.

JUDIC CHOLLET.

INEXPENSIVE WARDROBES.

The Secret Lies In the Wise Selection of Colors and Materials.

In order to properly select colors for personal wear there should be taken into consideration the complexion, hair, size and general appearance. Some one has advised that one dress according to the color of the hair in the daytime and according to the color of the eyes in the evening. A startling new color may be chosen by one who can afford to replace it by another when it has passed away on the wings of a fleeting fashion, but should be carefully avoided by the purchaser who must study economy.

Black net dresses, with black satin or colored bodices, will be found an economy by those whose purses are not overfull. With a bodice in some tint that has by ex-

WALKING GOWN.

perience been found, becoming the advantages of a skirt that does not date and a bodice that does justice to the wearer's good points can be combined. Evening blouses are made quite smart enough to wear at dances, and with a black net skirt and two or three of these a girl with a small allowance may feel that her friends will have nothing to criticize in her dress.

Pretty breakfast jackets or belted blouses made from the remains of an old gown and freshened with a bit of silk or ribbon garniture and worn with fresh ruffles are not difficult to make, and even if there is no old gown suitable for the purpose challies and thin cashmere are so inexpensive at present that the purchase of the few yards necessary will not be a serious outlay. It would seem as if every woman could afford to have a pretty dress in these days when henrietta cloth can be obtained in all the fashionable colors at 50 cents a yard.

A sketch is given of a walking gown of green cloth. The skirt forms godets at the back and is trimmed with applications of the same cloth, stitched in place. The plain bodice opens in front over a chemise of yellow pink mousseline de soie, and a wrinkled collar of the same material encircles the neck. Each side of the open bodice is adorned with pearl buttons, and an Anne of Austria collar in green velvet covered with white guipure vandyke covers the shoulders. The full cloth sleeves have deep velvet cuffs.

A DAY IN THE CITY IS TOLD OF HERE

BRAND-FENTON NUPTIALS AT
BELOIT TODAY.

Ceremony Was Performed by the Pastor of the Baptist Church This Afternoon, and Mr. and Mrs. Brand Will Return Home on Monday—Other Town Tales.

Otis H. Brand, city editor of the Daily Recorder, and Miss Mary Louise Fenton, daughter of Mr. and Mrs. Philo S. Fenton, went to Beloit on the 2:15 train this afternoon and were quietly married by the pastor of the Baptist church. They will return to Janesville at 5:40 o'clock this afternoon and take the 6:25 limited train for Chicago, where they will remain until Monday. Neither the bride or groom need an introduction to Janesville people. The former is the daughter of Mr. and Mrs. P. S. Fenton and was born and raised in Janesville. She is a graduate of the Janesville high school and a talented elocutionist. Many Janesville people are numbered among her friends and well-wishers, all of whom will extend their congratulations. The groom has held the position of city editor of the Recorder for many years and is well known to Janesville people.

Mr. and Mrs. W. S. Jeffris entertained a large number of friends last evening at an informal reception given in honor of Mrs. E. M. Foote, of Rockford, the widow of Rev. Hiram Foote, the first installed pastor of the Janesville Congregational church, and the occasion was a very pleasant one.

The Milwaukee Sentinel says it must tickle the sensational Dr. Eaton mightily to know that the most libelous part of his recent flings against the patrons of the charity ball was made the subject of a prominent article in last Sunday's New York Herald.

JAMES YOUNG, superintendent of the Great Northern railroad, of Milwaukee, was in the city yesterday and registered at the Myers. Mr. Young is a genial gentleman to meet and always has a good word for the Great Northern.

KNIGHTS and their ladies danced at Castle hall last night and a most enjoyable evening was spent. Professor Huyke's orchestra furnished the music and card tables were provided for those who did not dance.

THE valentine trade this year has been a record breaker, especially the trade in comics. Dealers have been crowded for the past two or three days, the younger people being the principal purchasers.

MANY young people took advantage of the rise in temperature and bright moonlight which prevailed last evening, and many sleigh loads were out making merry with the jingling of the sleigh bells.

FATHER SCHNEIDER, who has been visiting Father Roche, returned to his duties at Fort Atkinson this noon. Father Schneider has charge of the Fort Atkinson and Milton Junction district.

MRS. L. NICHOLS, who has made Janesville her home for the last few years, left on the morning train for Rhinelander, Wis., where she will live in the future.

HORSEMEN have cleared the ice track at the Monterey drive, and some sport was witnessed this afternoon between a couple of local fast steppers.

F. M. MARZLUFF has purchased the Bemis property, at 255 South Jackson street, formerly occupied by C. C. Blanchard, the cigar manufacturer.

THE man who heard a robin sing on his garden gate will be heard talking loud should this spring like temperature continue a day or two longer.

THE monthly inspection of the Light Infantry will occur this evening at the Armory, after which the soldiers will enjoy a social dance.

JOAN LOEB, brother of Joseph Loeb, and his brother-in-law, J. Frank of Chicago, are in the city and possibly may engage in business here.

THE Young People's Rectory club of Trinity church are rehearsing for an operetta entitled "The Jolly Farmers," to be given in the near future.

PROF. J. S. VAN CLEVE IN DEEP TROUBLE

A FORMER JANESEVILLE MUSI-CIAN'S HOME WRECKED.

Mrs. Van Cleve and C. E. Parish Are Locked in Jail as the Result—Professor Was Teacher of Music at the State School For the Blind For Many Years.

Professor John S. Van Cleve, whom many Janesville folk remember, is in deep trouble at Evansville, Indiana. It was Mrs. Van Cleve's fault and that's why she and C. E. Parish are locked in jail. A dispatch from Evansville, says in the carpeted receiving room of the jail was a scene. Professor Van Cleve had arrived a few minutes before. His wife was called from her cell in the woman's department of the jail. When she came to her husband he had called lovingly to her the pet name he had given her held up his arms, and she walked into his embrace. He threw his arms around her, clasped her convulsively to his breast and buried his head on her shoulder, at the same time bursting into a spasm of weeping. She merely placed her hands upon his shoulders and supported him. There was not one word of crimination on his part after they had embraced, and there was not a word of explanation on the part of the woman. There had been no agreement on the part of either, but their actions were such as to lead to the suspicion that a tacit understanding had been reached that no reference to the escapade of the wife should be made.

Mr. Van Cleve resided in Janesville many years, he being professor of music in the school for the blind during Superintendent Little's management of that institution. He was a favorite in social circles here, not only on account of his musical ability, but for his literary attainments. He was totally blind yet unaided he would walk to all parts of the city.

His memory in this respect was wonderful. He knew his location by keeping count of his steps. This was frequently tested by those well acquainted with him here. Meeting him at different points, they would ask him if he knew exactly where he was standing and his answer would invariably mark the exact spot. It was his custom to count the steps from the school building to the first turning point, say Center avenue, south. Then Monterey bridge, then Milwaukee street, west, the Grand hotel, and then the several business houses and so on. He would never make a mistake in going and coming, and would easily find the residence in this way of any of his friends in any part of the city he had ever visited before. He removed from Janesville some years ago, going to New York.

Wm. M. Ross, superintendent of schools, 1st district reported as follows which on motion of Supervisor Mayhew was acceded.

FOOTVILLE, Wis., Jan. 6, 1895.

To the board of supervisors of Rock county:

Gentlemen—The following is my annual report:

Total amount of money received by district trustees \$49,452.20 Total amount paid out during the year \$38,867.77. Balance on hand June 20, 1894 \$10,564.45.

TEACHERS' EXAMINATIONS.

During the year ten public and four private examinations were held, at which two hundred and forty-four candidates were examined. Sixty-seven secured first grade, twelve second grade and 150 third grade certificates. In all one hundred and sixty-nine were licensed to teach and fifty-one failed to pass the required examination.

ARBOR DAY.

Arbor Day is quite regularly observed in nearly all the schools of the country. The literary exercises of the day and the fact that school houses and grounds are nicely brushed up on that day are well worth the trouble.

In many school districts of the county much good has grown out of the observance of this day, so that not alone the school grounds have been much beautified, but also the door yard or nearly every house in the district has been decorated in the county where such training of the children is looked upon as foolish and a school board prefer instead, that their own annual or biennial cleaning of the house is quite sufficient.

TOWN LIBRARIES.

In most towns of the districts the town library system has taken deep root and the people no desire to abandon it. It is hard to understand why some towns are so slow to see the benefits of it. The expense is very small, the books being contracted for by the state. In some cases that are below the wholesale price. The benefit resulting from the use of books in school is not measurable.

Article ten, section one, of our state constitution provides that the school fund shall go to the support and maintenance of common schools in each district and the purchase of suitable libraries and apparatus therefor.

So far as I have learned, neither the towns of Janesville nor Center have ever compiled a list of the same.

Gov. Upham in his recent message said: During the past eight years over three thousand new libraries have been established in the county schools of the state. These libraries are broadening and bettering not only the schools, but the home of multitudes of children, and they should be extended.

PATRIOTISM.

In most of our schools the significance of the stars and stripes are being taught, and the spirit of our union floats on the breezes. In order to keep the flag flying in the schools a circular plan has been placed in each school house as a guide to the timely use of the flag. Four or five days in each month, such as commemorative days of special importance in our nation's history have been suggested as suitable days for floating the flag. On these days short time is spent by teachers and pupils discussing the merits of the event which is being celebrated. It is purely educational, and of lasting value.

TEACHERS' INSTITUTES.

According to our custom, two regular institutes were held during the year: One at Footville during the first week in April, conducted by Professor Pray; the other during the last week in August in Evansville, conducted by Professors Hutton and Walker, all of Whitewater. We had registrants at Footville, 100; at Evansville, 100; and seventy-five in various districts boards to employ only those who keep up with the times, and institutes are the best teachers' guides we have.

SUMMER REVIEW SCHOOL.

A summer school of four weeks duration was held in Janesville, conducted by Messrs. Buckley and Blakely, of Madison, together with two assistants. The school was made up of students who were preparing for teachers' examinations and by teachers who were working for a higher grade of certificate. If the branches required for a first class certificate are the only ones taught, the school will doubtless be held somewhere in the county next summer.

TEACHERS' ASSOCIATIONS.

A noted writer once said: "My light is so dimmed by the clouds of night that though teachers believe this to be true, and always attend the associations which are held from time to time at points that all may conveniently reach."

TOWNSHIP SYSTEM OF SCHOOLS.

According to existing laws, townships may organize into single school districts. In the counties of Iron, Oneida and Douglas about 100,000 people are in these districts. Most of these counties report that all are pleased with the system. The general adoption of the system would, I believe, cover a multitude of defects. Here are a few of them:

Firstly, the school board would adopt a uniform series of text books for all districts, in the towns, cities, villages, and the several no towns in the same series. This would not only be a great saving to our floating population but of much vexation and waste of effort on the part, to both teachers and pupils.

Secondly, the secretary of the board could buy books, apparatus, and other supplies at wholesale rates. Books could be sold to pupils at the same as wholesale rates.

Thirdly, a purer could be made by the secretaries that would be reliable and the easiness books could show a just balance.

Fourthly, the present system we have many school officials whose reports are worth as much as the reports of the school board.

Fifthly, pupils could attend the school nearest to their home. Most districts are of course too small to make money worse.

In the town of Union in this county lives a family eight rods from the school house. Said school house in district No. 10, but the family uniformed in the school in the village of Union, in order to attend school. This is a bad example to attend school in its own district. Serious troubles have arisen in Magnolia and Center this winter because pupils were not permitted to attend school near home but were compelled to walk two and one-half miles to their own school or not attend school.

Finally, the state constitution provides for a uniform system of districts. The size of the county school districts varies in the state from \$4000 to \$40,000. In this Superintendent district it varies from fifteen thousand to seventy five thousand dollars. In the town of Avon where I am town clerk and assessed the taxes for a series of years the rate of tax in the district was 100 mills, or one cent on the dollar between two and three mils, while in districts No. 1 and 2 it was from ten to eighteen mills. In the town of Harmony in 1893, the cost of schooling a child in district No. 3, there was eight dollars and ninety cents, and in districts No. 6, eight in the same town twenty-five dollars and forty-two cents. We see no uniform system of taxation would be uniform. We would have nine school offices where we now have twenty seven. It would neutralize local jealousies. At present the faction in power often hires the most incompetent person obtainable, particu-

larly if such person is related to their party, or is especially obnoxious to the other.

With a town board the majority of whole members would live a mile from the scene of action, and the representation of a faction could have little influence.

The future of our schools is in the hands of their patrons. If these patrons make the test of a teacher's engagement to be physical moral and mental ability, instead of a matter of dollars and cents, then the years to come will continue to grow brighter to almost perfect.

Respectfully submitted,

WM. M. ROSS.

On motion of Supervisor Mayhew. Accepted.

Superintendent David Throne, of the Second district re-ordained as follows:

To the Honorable Board of Supervisors of Rock County Wis.

Given, W. G. Wheeler, dis. attorney, of the 1st district, tendered my annual report of the condition of the schools in the Second district.

I warrant during the year ending June 30, 1894 267 certificates. Of these, 9 were first grade, 21 second grade, and 17 third grade. Out of the entire number only 25 were granted to male applicants and find by referring to the records of the school board, the total number of certificates granted was 169. The growth in

increase for the past year was in a large measure, caused by the fact that the prevailing hard times has caused many to enter the field of teaching, who otherwise would have remained for a longer period in the same engaged in other pursuits. This fact brings us to this pointed question: Is it wise to play astuciously those who desire to teach only until something better turns up, and thus exclude those who have a thorough preparation for the work, an have had the practical lessons of experience? The large number of teachers necessary to fill the places in the schools, which school management is 99% 12 different teachers were employed during the year. When we compare this record with that of former years, we find there has not been so much of change in the past; and when we consider that the too frequent change of teachers have good reason for this, we find that the school management is not helpful. Our teachers ought to be given a more liberal compensation in a more general way. Boards ought to give preference to those teachers who attend institutes and do them up to the times. Boards ought to give preference to those teachers who attend institutes and do them up to the times. Our teachers meetings have been well attended. The annual institute was held in the college chapel at Mt. Pleasant Aug 13-17. Sixty-two teachers were in attendance. Professor J. A. James conducted the work, and was ably assisted by Miss Charlotte E. Richmond, of Madison, and Principal J. B. Borden, of Milton Junction. The work done was excellent. The work done in the more advanced classes was excellent. Our teachers ought to be given a more liberal compensation in a more general way. I have also made a list as required by law of all county orders remaining in my office to years or more uncollected for. And have placed said list together with the orders in the hands of the proper committee to be destroyed at this meeting of the county board.

W. J. MINTYRE,
County Clerk.

On motion, report adopted.

By request Trustee William Gunn, of the county insane asylum, was heard in relation to improvements needed at the asylum.

Supervisor S. Snith, from committee No. 10, reported as follows and moved its adoption:

Your Committee No. 10, to whom was referred bill No. 34, in the Gazette of Jan. 10, for making a delivery of salt, \$30,000, leaving amount of \$724, said bill was afterwards reduced by said company \$200, leaving amount of bill \$524. On said bill committee No. 15 allowed \$235.25, leaving amount claimed \$290.75. Would respectfully report that they have considered the same, and upon the advise of the district attorney, that the same is correct, and the court of the state of Wisconsin, October 23, 1894, in the case of Bohan vs. Ozaukee, county would therefore recommend that no further action be taken on the aforesaid bill.

SIMON SMITH,
E. RATHERAM,
A. C. POWELL,
Committee.

Supervisor Vankirk moved that the report be made the special order for 10 o'clock a.m. tomorrow.

S. S. Northrop was heard in regard to canceling certain tax certificates which he claims were issued illegally.

On motion the matter was referred to committee No. 1.

Supervisor More, from Committee No. 13, reported as follows and moved its adoption:

To the Board of Supervisors of Rock County:-

Gentlemen: Your Committee No. 13 to whom was referred the following entitled bills, would respectfully report that the bills had been examined and after a careful examination of a bill it is contained therein, re-commend that the several amounts as set forth in this report be allowed each claimant respectively, to wit:

HOW A WATCH IS EFFECTED.

In Some Cities It Runs Ahead and in Others It Loses.

"It is curious to notice the effect of certain atmospheres upon timepieces of a certain kind," said A. G. Graham of Chicago. "I have a watch of the old-fashioned type, which I always carry with me wherever I go; first, because it is a curiosity, and secondly, because it is a gift from a much beloved friend. Well, this watch has a habit of running ahead of time. In my own city, or in St. Louis, for example, it gains five minutes in every twenty-four hours. This is noticeable, because it means nearly two hours a month. I have a way of letting it run for a length of time, say six months, so that it regulates itself practically in that time. It manages to make about twelve hours, and when a timepiece is that much ahead of, or behind, time it is just as good as if it were perfect. A short while ago I was compelled to visit Philadelphia, from which city I am just returning. During my stay there the watch lost five minutes a day, and the loss was as regular as the gain was in Chicago or in your city. I have a theory upon the subject. I believe that the movements of a man have more or less effect upon a watch. Now, almost every man readily falls into the ways and gait of his fellows. In Chicago or in St. Louis every man likes to be five minutes ahead of time. In Philadelphia everyone says, 'Well, there's no hurry: five minutes behind time will make no difference,' and from this follows that slow, easy gait which is the most striking characteristic of the Quaker city. It would seem the watches keep time in the same fashion, as if in sympathy with their owners. So you see there is pretty good reason for the allegation with regard to Philadelphia's proverbial slowness."

Live Snake in Solid Stone.

A live snake in a cavity in a solid, stratified stone is an oddity reported to have been found by a railroad construction gang in charge of Matt McLaughlin of Beaver Falls, Pa. The snake was of some unknown striped variety, about ten inches in length, and unusually lively and vicious. The geologist who examined the egg-shaped cavity in which this particular ophidian was found, and who declares that the cavity had no possible communication with the outside world, assigns it to a period which would make the snake at least 10,000 years old.

The Vegetarian and the Lady.

"Meat eating makes one irritable and unreasonable. It is a savage —" "What do I care?" "Besides, it is fatal to beauty, wasting as it does the —" "Oh, is that so?" Why didn't you say so in the first place?"
